

**Absence declaration – RoHS and WEEE Directives**

Products: Terluran® grades

Version 1.0

Date: 01 March 2023

We hereby declare that regarding the composition of the products manufactured and identified as:

**Terluran® GP-22 NR, GP-22 BK 10009, GP-22 WT10020, GP-35 NR, GP-35 BK 10009, GP-35 WT10020, EHI-4 NR, EHI-7 NR, HI-10 NR, HI-10 BK 10009, KR 2910 BK 10009**

**EU-Directive 2011/65/EU on Restriction of Hazardous Substances in electrical and electronic equipment (“RoHS Directive”)**

Please be advised that we have reviewed the RoHS directive 2011/65/EU of the European Parliament and of the Council of 8 June 2011 as lastly amended by Commission Delegated Directive (EU) 2019/178 of 16 November 2018. Based on the information available to us from our raw material suppliers, the current products referred to above do not contain as intentional additives any of the below referenced materials as referenced in the subject EU directive. To the best of our knowledge, none of these materials are generated during production.

Therefore, the requirements regarding the absence of substances listed in the amended Annex II of EU-Directive 2011/65/EU are fulfilled.

- Cadmium and its compounds
- Hexavalent chromium compounds
- Mercury and its compounds
- Lead and its compounds
- Polybrominated diphenyl ethers (PBDEs)
- Polybrominated biphenyls (PBBs)
- Bis(2-ethylhexyl) phthalate (DEHP)
- Butyl benzyl phthalate (BBP)
- Dibutyl phthalate (DBP)
- Diisobutyl phthalate (DIBP)

Therefore we can confirm that INEOS Styrolution America Terluran® grades as listed above will not contain these substances above the threshold limits of 0.01% by weight for Cadmium and 0.1% by weight for Lead, Mercury, Chromium-VI, Polybrominated Biphenyls, Polybrominated Diphenylethers, Bis(2-ethylhexyl) phthalate (DEHP), Butyl benzyl phthalate (BBP), Dibutyl phthalate (DBP) and Diisobutyl phthalate (DIBP).

**EU-Directive 2012/19/EU on Waste Electrical and Electronic Equipment (“WEEE Directive”, previously 2002/96/EC, recasted)**

The EU-Directive 2012/19/EU, amended last by Directive (EU) 2018/849 of the European Parliament and of the Council of 30 May 2018, defines the recovery of waste electrical and electronic equipment. Therefore, we as raw material supplier cannot provide a statement of compliance, because this is dependent on the final article. We have examined the WEEE directive and as far as we can determine, the only requirement that would apply to INEOS Styrolution is to disclose the presence of brominated flame-retardants (see Annex VII of the directive). We can state that INEOS Styrolution does not deliberately add any brominated flame-retardants to its Terluran® grades nor are they present to the best of our knowledge, in any of the raw materials used to manufacture these grades.

As a resin supplier, INEOS Styrolution America cannot be held responsible for any processing which may occur to produce finished articles, compounds, packaging materials or their component(s).

For notice:

Many substances are ubiquitous. The observance of all these substances is not part of our ongoing production control. In view of the many factors that may affect processing and application of our products, these data do not relieve processor from carrying out own investigations and tests neither do these data imply any guarantee for certain properties nor the suitability of the product for a specific purpose. It is the responsibility of the recipient of our products to ensure that any proprietary rights and existing laws and legislation are observed.

Please note that this declaration is only valid for prime products manufactured within North America.

If you have further questions, contact your local sales representative or send an E-Mail to:
